CAD Resources that work for you

BRINGING COMPUTER AIDED DESIGN TO YOU AT AN AFFORDABLE PRICE

CAD Graphics Studio Limited providing solutions for manufacturing, design, engineering and architectural sectors. We have a highly committed team of CAD draughtsmen combining the ability to take initial concepts through rendered visuals to 2D & 3D architectural and manufacturing drawings.

We can assist you in the production and management of 3D and 2D drawings for sales and marketing, client approval, design and manufacture. Our team has worked extensively in all areas of retail, public sector and private residence producing drawings with practical solutions to manufacturing problems.

RECENT PROJECTS

- Aspers Casino - Internal Fitting Out
- Aston University - Lecture Theatres
- Birmingham University - Staircases & Balustrade
- Gordon Ramsay's Plane Food - Bar & Backbar
- House Of Fraser - Internal Refits
- HSBC - Surveys & Layouts
- Ministry Of Defence - Graphics, Surveys & Layouts
- 02 Arena - Ticket Offices
- Probation Services - 3D Models & Rendered Visuals
- Residential Properties - Internal Refits
- Tiffany & Co - Staircases & Balustrades
- Wales Millennium Centre - Acoustic Ceilings, Walls & Screens

INTEGRATED SOLUTIONS

Our flexible approach allows us to work as part of your team. Always at hand to help and provide you with a full support service exclusive to you.

Our extensive knowledge of varying manufacturing techniques allows us tailor our drawings to your processes and procedures.

Fully incorporated with your working methods and providing the security and confidence you require from us.

flexible solutions for your business needs

CAD GRAPHICS STUDIO LTD PROVIDES A TOTAL SOLUTION FOR YOUR VISUAL AND CAD REQUIREMENTS.

WEB SOLUTIONS

To your door service. All work is supplied electronically as soon as it is completed. Ensuring there are no costly delays to your projects and assuring you that the latest revisions of drawings are always at hand.

2D & 3D CAD SOLUTIONS

Whether you need drawings in 2 or 3 dimensions we can provide complete technical detailing and solutions. Working extensively in:-

- Airports
- Banking
- Exhibitions
- Home Office
- Ministry Of Defence
- Museums
- Private Housing
- Renovation
- Restoration
- Restaurants
- Retail
- Theatres
- Universities

We have a thorough understanding of all forms of construction materials and techniques.

VISUAL & ANIMATION SERVICES

We use the very latest CAD, render and animation software to produce stunning visualisations. Allowing you to fully experience your project before committing to final manufacture.

SURVEYING

Detailed site surveys are carried out using the very latest laser technology ensuring accuracy and speed. Survey information can be supplied to you in a format to suit your needs. Alternatively, we can produce CAD drawings of the survey and use this to produce existing, proposed and as built plans, elevations & sections through to suit your requirements.

Building surveys can be carried out as destructive, part or non destructive and the information taken will be specific to you.
